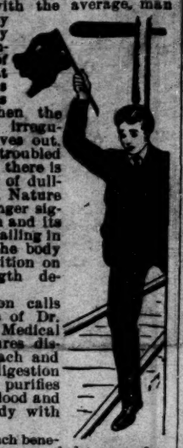
DANGER SIGNALS.

No engineer would be mad enough to run by the flag which signaled danger. It is different with the average man or woman. They attempt constantly to run by the danger signals of Nature and that attempt costs thousands of lives every year. When the appetite becomes irregular or entirely gives out, when sleep is troubled and broken, when there is a constant feeling of dullness and languor, Nature is hoisting the danger signal. The stomach and its allied organs are failing in their work and the body is losing the nutrition on which its strength depends.



Such a condition calls for a prompt use of Dr. Pierce's Golden Medical Discovery. It cures diseases of the stomach and other organs of digestion and nutrition, purifies and enriches the blood and builds up the body with sound, solid flesh.

"I have had so much benefit from your medicines am glad to say a few words that you may use for publication," writes Mrs. J. R. Downes, Crystal Lake, Conn. "Had been troubled with a complication of diseases for over two years, but kidneys and liver bothered me most. Some of my worst ailments were headache, frequent pains around heart and under right shoulder-blade. My hands and feet were cold nearly all the time, and I had such chilliness between shoulders. Some days cared but little for food; I lost flesh; felt so tired and miserable it seemed I couldn't do any housework. Took medicine from my physician, but received no benefit. Bought a bottle of 'Golden Medical Discovery,' and after taking it I felt so much better we determined to give it a fair trial. Appetite soon improved and gradually the disorders disappeared until now I am well."

A Great Doctor Book Free.—Send 21 one-cent stamps to Dr. R. V. Pierce, Buffalo, N. Y., to cover cost of mailing *only* and he will send you a free copy of his 1008-page Common Sense Medical Adviser, paper-covered. Cloth-covered 31 stamps.

WASHING WITHOUT WATER

Is Like Trying to Get Rid of Dandruff Without Herpicide.

Did you ever see any one trying to wash themselves without soap or water?

If you did what would you say of him?

It is every bit as foolish to try to get rid of Dandruff and to prevent Baldness by feeding the germs which cause it, with Canthrarides, Vaseline, Glycerine and similar substances which form the principal ingredients of most so-called Hair Vigors.

Newbro's Herpicide is successful because it attacks and kills the parasitic germ which feeds on the hair roots.

It is the original and only genuine scalp germicide manufactured.

Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

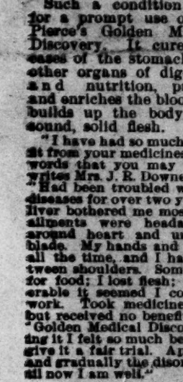
STRONG Again



is what Mrs. Lucy Stovall, of Tilton, Ga., said after taking Kodol Dyspepsia Cure. Hundreds of other weak women are being restored to perfect health by this remedy. YOU may be well if you will take it.

Indigestion causes nearly all the sickness that women have. It deprives the system of nourishment and the delicate organs peculiar to women suffer — weaken, and become diseased.

Kodol Dyspepsia Cure

enables the stomach and digestive organs to digest and assimilate all of the wholesome food that may be eaten. It nourishes the body, and rebuilds the weak organs, restoring health and strength. Kodol cures indigestion, constipation, dyspepsia, sour risings, belching, heartburn and all stomach disorders.

MUTINY ON BATTLESHIP.

The murder of the officers of the Russian battleship Kniaz Potemkine and the seizure of the vessel by the mutineers has been announced in the Gazette.

A dispatch from Odessa, dated Wednesday night, says: "The whole of the quays and buildings around the harbor, as well as much shipping, are in flames, and mobs of incendiaries prevented the fire brigade working. Troops are kept at bay and are afraid to approach within reach of the Kniaz Potemkine's guns, which threaten a disastrous bombardment. The city is appallingly illuminated by burning buildings, and terror prevails everywhere. Sleep is impossible and everybody is watching and waiting. The whole garrison has been requisitioned for patrol duty. It is thought that it may become necessary to summon foreign warships for the protection of the foreign colonies. Tuesday night's collisions between the mobs and the police and military resulted in the loss of seventeen lives, including three policemen."

A dispatch from Odessa says that the red flag of revolution is hoisted at the mast-head of the Kniaz Potemkine, Russia's most powerful battleship in the Black Sea, which now lies in the harbor in the hands of mutineers. The captain and most of the officers were murdered and thrown overboard in the open sea, and the ship is completely in the possession of the crew, and a few officers who have thrown in their lot with the mutineers.

The guns of the Kniaz Potemkine command the city, and in the streets masses of striking workmen who on Tuesday fled before the volleys of the troops, are now inflamed by the spectacle of open revolt on board an imperial warship, and are making a bold front against the military.

All day long firing was heard in many quarters of the city. A number of barricades have been erected and tumult and disorder reign.

The main squadron of the Black Sea fleet, consisting of the battle-ships Georgei Pobiedonosetz (George the Victorious), Tri Sviatitelia, Rostislav, and Ekaterina II, with two cruisers, were expected to arrive at Odessa last night, and a regular naval battle is in prospect.

The rioters are in a most defiant mood, and are not inclined to surrender without fighting.

Reports of the mutiny, which occurred while the battle-ship was at sea, are difficult to obtain, as the mutineers refuse to allow communication with the shore; but it is ascertained that it arose from the shooting of a sailor who was presenting on behalf of the crew a complaint against bad food. According to one version, this sailor, whose name was Omiltchuk, objected to the quality of the "borchich," or soup, and was immediately shot down by a mess officer. The crew then rose and seized the ship and the officers, eight of whom were spared on condition that they would join the mutineers. The others were killed and their bodies thrown overboard.

After a period of vacillation the Kniaz Potemkine headed for Odessa and arrived there Tuesday night, accompanied by two torpedo boats. Early yesterday the body of Omiltchuk was brought ashore in one of the battleship's boats and was landed on the new mole, where it has been exposed in semi-state all day. It was visited by thousands of persons, many of whom placed coins in a basket at the head of the body toward a fund to defray the cost of the funeral, which the sailors propose to hold today and which the strikers will make the occasion of a great demonstration.

An inscription on the breast of the sailor states on behalf of the crew that Omiltchuk died for the truth because he presented a just complaint of the crew.

The authorities have made no attempt to remove the body, the sailors having served notice that the ship would open fire on any one seeking to interfere with it. A police agent visiting the spot was killed by strikers.

During the day a red flag was hoisted on the Kniaz Potemkine, and members of the crew rode from ship to ship in the harbor, forcing the stoppage of all work thereon. Food was supplied them by sympathizers on shore, who pillaged the maritime storehouses.

The strike is now general in the city and the rioters are growing in numbers and boldness. There were exchanges of shots all day, but the number of victims cannot be stated. Yesterday evening a bomb was thrown in Cathedral Palace, killing its thrower and a policeman.

During the day one of the torpedo boats which accompanied the Kniaz Potemkine came into the harbor and seized the Russian steamer Esperanza. The steamer was laden with 2,000 tons of coal, which the battle-ship is taking on board.

The governor has telegraphed for a squadron to be sent from Sebastopol.

A dispatch from St. Petersburg says: "More serious in its possible effects than all the defeats in Manchuria or the destruction of Rojestvensky's fleet was the news which reached St. Petersburg Tuesday evening that the standard of open rebellion was floating on board one of the Emperor's battle-ships in the harbor of Odessa, and that with shotted guns the mutinous crew headed by eight officers was holding the ship against all comers.

The authorites are in almost a state of panic, and at the admiralty consternation reigns. Admiral Wirenius, chief of the general staff of the navy, said that the admiralty had received advices regarding the mutiny, but that he was unable to give details. He frankly confessed that the situation was very grave, and that he did not know what to expect.

The Kniaz Potemkine is a more powerful ship than any in Kruger's squadron, and the gravity of the situation is increased by the fact that the city is practically in possession of the strikers, who, according to the dispatches, had already been encouraged to open resistance by the mutiny of the sailors, and were erecting barricades and fighting the police and the troops in the streets.

Should the sailors of Kruger's ships join the mutineers, the government would have to face open revolution, which would spread like wildfire to other towns in the Black Sea littoral. The workmen of all these towns, from which sailors are largely recruited, are imbued with the socialistic and revolutionary propaganda. At Sebastopol less than a month ago disorders were suppressed with difficulty.

Torture of a Preacher.

The story of the torture of Rev. O. D. Moore, pastor of the Baptist church, of Harpersville, N. Y., will interest you. He says: "I suffered agonies, because of a persistent cough, resulting from the grip. I had to sleep sitting up in bed. I tried many remedies, without relief, until I took Dr. King's New Discovery for Consumption Coughs and Colds, which entirely cured my cough, and saved me from consumption." A grand cure for diseased conditions of Throat and Lungs. At E. S. Leadbeater & Sons, druggists; price 50c and $1.00, guaranteed. Trial bottle free.

THURSDAY EVENING, JUNE 29, 1905.

THE LAST phase of Russia's internal troubles is attracting universal attention and causing untold anxiety, not only in the land of the Czar, but throughout the civilized world. One of the few remaining vessels of Russia's once powerful fleet is in charge of a mutinous crew which is likely to attack neutral ships or commit any other overt act likely to bring about international complications. Beside such a grave menace, the revolutionists have been made bolder by the seizure of the ship which, in irresponsible hands, is likely to bombard cities and spread the flame of internecine strife. The riots in Russian Poland are far from being allayed, while assassinations and rumors of assassination fill the air. We live in troublous times, and there is no telling what the future is to bring forth. The boldness of the mutineers who have murdered their officers, cast their bodies into the sea and taken charge of a powerful battleship is one of the boldest acts of this day and generation, and the example set by these desperate men may be followed in other cases where grievances, real or imaginary, may be presented to officers. These are perilous times, and the acts of revolutionists, rioters and mutineers may be the prelude to more serious phases of the world's history.

IN CONSEQUENCE of the manipulation of the markets by the beef trust, the export trade in fresh beef alone has declined more than $4,000,000 in the last eleven months. On the other hand, the export of fresh beef from Argentina is largely increasing. Instead of mending its ways at home, the beef trust proposes to go to Argentina and obtain a trade monopoly from the government. But it will be apt to find that a great deal more difficult than to evade the laws of this country.

PRESIDENT ROOSEVELT, in an address at the Harvard alumni dinner yesterday, declared, in effect, that the wealthy should display more honesty in their methods of acquiring riches, rather than spend so much of their fortune on philanthropy. If the rich men who are so prone to applaud Mr. Roosevelt in many things he says and does would follow his advice in this particular, the country would be better therefor.

TO DATE, the champion fish story of the season has been told by the Boston Globe. It says that two Maine men went out fishing lately and saw a big fish under their boat. The fish would not be hooked, so one of the men dived overboard and caught the fish by the tail with his teeth. The second man pulled the two into the boat

CHINA is talking of boycotting American goods and the New York Tribune suggests that it might not be a bad idea for America to try to get along without the firecracker.

From Washington.

[Correspondence of the Alexandria Gazette.]

Washington, D. C., June 29.

The meagerness of official information from Odessa leads to the belief here that the situation on the Black Sea has practically reached the proportions of a revolution. The Russian government has established a strict censorship on all press telegrams from the Black Sea district, and it is suspected here that even government dispatches are being held up by the local authorities. Up to noon today nothing had been received from U. S. Consul Heenan for twenty-four hours. To describe the seizing of the battleship Kniaz Potemkin as mere mutiny, in the opinion of officials here, minimizes the situation. They consider this coup as only part of the general plans of the revolutionary element at Odessa and other Black Sea towns. The crew of the battleship was undoubtedly recruited largely from among the factory hands in those places, where the spirit of socialism and revolution is rampant. The fact that it is reported that a number of the officers were spared lends color to this theory. The crew evidently saved such of the officers as were in sympathy with the revolutionists. Developments are being watched by this government with the keenest interest. Little surprise would be felt in Washington if the rest of Admiral Kruger's Black Sea fleet should be seized by the crews on their arrival at Odessa, when they learn of the successful attempt on the Kniaz.

The committee appointed by President Roosevelt to investigate the departments of government has decided to adjourn its work until autumn, principally because so many bureau chiefs and employes are on vacation that an inquiry during the summer would scarcely afford proper results. As far as they have gone the investigators have found curious conditions, particularly in the purchase of supplies, a uniform programme for which in all the departments the committee intends to advocate. It is found that in one department ink costs $2.60, while in another the price paid for the same quantity is $6. Blotting paper in one bureau is purchased for $3, and in another for $8. Government buildings in the various cities of the country will be investigated, both as to the cost and manner of management. Some court and postoffice buildings are notoriously ill kept, while others are two expensive. The committee tomorrow morning will hold a hearing at the government printing office on the purchase by public Printer Palmer of 72 Lanston type-setting machines. The Mergenthaler Company's President, Philip T. Dodge and his attorneys will do all in their power to show that such a large investment in the Lanston machine is bad business.

Officials of the Department of Commarce and Labor pofess to see in the present Chinese anti-American boycott the hand of Wu Ting Fang, the former Chinese Minister to Washington. They say that the department is reliably informed that the Chinese government is not behind the present agitation, nor does it look with favor upon the immigration of its subject to foreign countries. In the various alarming reports telegraphed from China to this country, tending to domonstrate the widening of the extent of the anti-American movement, the officials here recognize the craft of the wily Wu.

Major John M. Carson, chief of the Bureau of Manufactures and Bureau of Commerce and Labor, speaking of the mission of the five respresentatives of the department who are going abroad to investigate commercial conditions in the interests of American Manufacturers, said today that the bureau's intention is to acquire information which will be of use to producers in this country in teaching them the character of goods foreigners require.

The State Department received a dispatch from United States Ambassador Meyer at St. Petersburg this morning, stating that the Russian government was about to promulgate an order involving an extensive mobilization of troops in the districts of St. Petersburg, Warsaw, Moscow and Kieff. The order will state, so Mr. Meyer says, that this mobilization is for the sole purpose of strengthening the Russian forces in Manchuria. The order will involve between 100,000 and 200,000 troops. The State Department has also received a dispatch from Ambassador Meyer confirming the report of the mutiny on the two Russian vessels of the Black Sea squrdron and the arrival of the vessels at Odessa.

After a two hours' conference with Panama canal officials, Secretary Taft said this afternoon that a statement would be given out this evening regarding the status of Chief Engineer Wallace. WAR IN THE EAST.

A dispatch from Gunshu Pass, Manchuria, dated yesterday, says: The most disquieting feature of the strategic situation of the Russian armies is the persistence of the reports that Japanese cavalry and light infantry, with field and machine guns, are working northward east of Kirin and west of the Grand Trade route toward Bodune. The Japanese cavalry on the west is under the command of Generals Tamara and Akiama. General Linevitch is not attempting to seriously oppose the Japanese advance along his front, but is drawing in his outpost lines upon pressure

A dispatch from St. Petersburg says that advices have reached the general staff of the withdrawal from Vladivostok of three regiments of infantry, cavalry and artillery, to the number of 12,000 men. This is part of a rearward concentration necessitated by the advance of General Kasegawa's sixth Japanese army across northeast Korea from the Tumen river. General Kasegawa's force has developed unexpected strength, numbering over 100,000 men, although his vanguard numbers only 5,000. The knowledge that the enemy is so strong in the secondary seat of war has spread a hopeless feeling among the staff in regard to coming operations. It is convinced now that Field Marshal Oyama has a greater preponderance over General Linevitch than he ever had over General Kuropatkin.

The general staff announces that it has absolutely nothing to support the many wild reports that General Kuropatkin has been killed or has committed suicide and that a portion of the Russian army is surrounded. On the contrary, the staff reports that the Russians have achieved a considerable victory.

According to the information in possession of the staff the operations thus far have been in the nature of preliminaries for a general engagement which has not begun. They regard the movement of the Japanese in Korea as being most serious, believing that it indicates their determination to drive a wedge northward and isolate and invest Vladivostok before the peace negotiations begin.

There are indications that the Russians propose to offer resistance at the Tumen river.

A dispatch from Vladivostok says that Japanese warships, believed to be torpedo boats, were seen on the horizon yesterday.

Her husband accompanied her to the railway station, but on his return home received an annoymous letter saying he would find his wife in a hotel at Novi. He went straight there, and, finding that this information was correct, shot the woman dead. He then gave himself up to the police.

MISS ROGERS' BODY FOUND.

The body of Miss Mary Oden Rogers, of Leesburg, who disappeared from the Baker cottage at Saranac Lake, N. Y., late Saturday night or early Sunday morning, was recovered yesterday evening from the Saranac river. It was found by W. Stearns, a boatman, employed by members of Miss Rogers' family, and was about one-quarter of a mile below the point at which she was supposed to have jumped into the river. District Attorney Finn authorized the removal of the body by an undertaker who embalmed and prepared it for burial. Coroner Severance will hold an inquest. As soon thereafter as arrangements can be completed the start will be made for Virginia.

District Attorney Finn last night issued this official statement about the death of Miss Rogers:

"I learned that this young woman had mysteriously disappeared from the Baker cottage, at Saranac Lake, and there was some suspicion of foul play. I at once retained Attorney H. P. Coates, of that place and instructed him to make a thorough investigation and report to me. Witnesses were examined by him, and he reported that he was satisfied that it was a case of suicide. Later I was urged to make a personal investigation. I came to Saranac Lake and interviewed all the parties involved in the matter and have considered that the nurse, Miss Ada P. Janney, Washington, D. C., and the friend of the accused, Mr. W. N. Smith, an attorney of Baltimore, are entirely blameless, and their actions and statements have shown that they had but one desire, and that was to tell the truth. Many theories were advanced, but the recovery of the body from the Saranac river exonerated all parties and establishes beyond question that death was suicidal. There were no signs of violence upon the body nor in the apartments of the deceased, and she undoubtedly escaped from her room by cutting the mosquito wiring from her window. No one could have been interested in the death of the young lady, she having practically no estate and all statements that she was wealthy or would inherit wealth are false and without foundation. It is impossible to discover any motive which would induce any person to do away with her. The reports to the contrary published by certain papers were unwarranted and the products of the imagination of over-zealous newspaper reporters."

Miss Rogers was born in Leesburg about 34 years ago. She was the daughter of Alexander Rogers, her mother, before marriage, being Miss Julia Claggett, of Leesburg. For many years she had been engaged to marry Willoughby N. Smith, an attorney of Baltimore, but would not consent to the marriage during the lifetime of her mother. On account of her mother's age a large part of the care and management of the family estate, Woodburn, devolved upon Miss Rogers. After her mother's death in February, 1903, the estate was sold and Miss Rogers moved to Leesburg, making her home with her sister, Mrs. R. B. Fishburn.

It was not long after this, however, that Miss Rogers developed tuberculosis and upon the advice of her physician she went to Saranac Lake, accompanied by a trained nurse and Willoughby Smith. She was exceptionally popular in that community. At no time while in Leesburg did she appear to suffer from melancholia or any other diseases of the mind.

Miss Rogers was not a person of great wealth, as has been generally reported, though she had independent means. The bulk of her property came from a legacy of $10,000 in life insurance left by her brother, Oden Rogers, who died in 1904. It is believed that she invested the sum on the advice of Smith, but it is not thought that she suffered any financial losses or reverses.

Saranac Lake, N. Y., June 29.—District Attorney of Essex county, H. J. Finn, has issued a official statement regarding the death of Miss Mary Rogers. He says: I have concluded that the nurse, Miss Ada Janney, of Washington, and the friend of the deceased, Mr. Willoughby N. Smith, an attorney, of Baltimore, are entirely blameless and their actions and statements have shown that they have but one desire, and that was to tell the truth. Many theories were advanced, but the recovery of the body from the Saranac river exonerates all parties and establishes beyond question that death was suicidal. There were no signs of violence upon the body nor in the apartments of the deceased, and she undoubtedly escaped from her room by cutting the mosquito netting from her window."

RUSSIA'S INTERNAL TROUBLES.

Mutinous Crew—Street Riots—Alarming Reports—Many Killed—Reported Bombardment.

Berlin, June 29.—The correspondent of the Zeitung at Odessa, telegraphs that the mutinous crew of the Kniaz Potemkin began a bombardment of the city this morning. The harbor works have been badly damaged, according to the correspondent.

Odessa, June 29.—Last night was like a long terrible nightmare to the inhabitants of this distressed city. Disorder reigned, and the ever present fear of greater troubles in case the mutineers on the Kniaz Potemkin, the battleship which was seized by her crew and brought into this harbor under the red flag, should carry out their threat to fire on the town, kept everyone wrought up to the highest pitch of excitement and alarm.

The strikers, who have been made bolder by the arrival of the Kniaz Potemkin on which they rely to wipe out the garrison here if a general battle is precipitated, refused to obey the orders of the troops to disperse. A fierce street fight followed the attempt of the soldiers to drive them from the streets. The battle raged in the streets for over an hour, the soldiers firing volleys into the crowds, while the strikers replied with scattered shots, which nevertheless did great execution among the soldiers. Barricades were erected in various parts of the city, and behind these defences the strikers kept up a scattering fire until driven out by the charges of the troops. Even then the fighting was kept up at intervals in different parts of the city. Gradually the troops gained the upper hand and succeeded in driving the rioters to cover.

The authorities refuse to give any details in regard to the number of the killed and wounded, but eye witnesses to the struggles declare that the casualties number over 300. Before the strikers were repulsed they made a concerted effort to fire the entire city, buildings in various sections being set afire simultaneously. The shipping and buildings along the harbor front especially suffered. The harbor front was partially destroyed before the firemen could get the flames under control, as the strikers prevented them by force from working. The court house and several other large buildings were partially burned. There is the greatest danger of an outbreak at any moment as business is at a standstill, and the workmen have nothing to do but walk the streets. The strikers are almost certain to take advantage of the situation to start fresh trouble, and in this case, a clash between the people and the troops cannot be avoided.

Warsaw, June 29.—The news of the revolt on the crew of the battleship Kniaz Potemkin, and of the arrival of the vessel at Odessa, where the red flag was hoisted, became known here last night, by means of a private telegram which was allowed to pass by the censor. The news spread rapidly and was soon known to socialist leaders who passed the word along to all their followers. Meetings of socialists were quickly called which were turned into jollifications. Resolutions were adopted expressing the socialists' hopes for the success of their "naval brothers." The socialists have been greatly excited by the news and are urging their leaders to organize further disturbance at once out of sympathy for the Black Sea sailors.

The third attempt within twenty-four hours to assassinate the chief of police of Chenstochav was made last night when a bomb was thrown at the official as he was riding through the streets. The bomb was exploded beneath his carriage. The horses were blown to pieces and the vehicle was wrecked, while the coachman was badly injured. The police chief, however, escaped without a scratch. The perpetrator of the outrage escaped.

Berlin, June 29.—The Morgen Post says that a conspiracy among officers of the Russian guards regiments has been discovered at St. Petersburg. The officers had planned to destroy the dangerous influence exerted by the Grand Ducal over the Czar by killing Grand Duke Vladimir, who is held to be largely responsible for the policy of reaction pursued by the Grand Dukes. The plot was carefully arranged and Vladimir was to be invited to a supper when he was to be assassinated.

St. Petersburg, June 29.—The latest news received here from Odessa is to the effect that the strike is spreading rapidly. Nearly all the workingmen in the city are now out on strike.

The report that the mutinous crew of the Kniaz Potemkin has fired on the town is not confirmed. The censor is at work, and all details in regard to the troubles which occurred are carefully cut out of messages before they are allowed to pass.

St. Petersburg, June 29.—Alarming reports have reached here from Odessa to the effect that a provisional government has been established. A reign of terror prevails among the peaceful citizens, who have taken no part in the riots, but who are in great fear for their lives. Private dispatches have been stopped by the censor, and no authentic news is obtainable.

It is feared that serious international complications may arise in case of any riotous outbreak on the part of the mutinous crew on the Kniaz Potemkin owing to the fact that a large number of foreign vessels are in port at Odessa.

Vienna, June 29.—A dispatch received here from Lodz, Poland, says that the authorities there have threatened to bombard the town in case there is any further firing on the police or troops by the strikers.

London, June 29.—A private telegram from Odessa to Lloyds received this morning says: "Serious riots here, hundreds shot, port partially burned, martial law declared, now quiet. All well. The last words are supposed to mean that all members of the British colony in Odessa are safe.

Lloyds is charging 75 guineas per cent to insure British ships bound to Odessa against war risks, and shell from the battleship Kniaz Potemkin, which has been seized by a mutinous crew.

A private telegram in a cipher code which has been received here, says that no damage has yet been done to British ships at Odessa.

London, June 29.—Dispatches received from St. Petersburg say that it is rumored there that the crews of the ships belonging to Vice Admiral Kruger's squadron which left Sevastopol on Tuesday, supposedly for Odessa, have followed the example set by the sailors on the Kniaz Potemkin, and have seized the ships after killing the officers.

Odessa, Russia, June 29, 5:30 p. m.—The situation here has grown unmistakeably worse in the last few hours, and fears are entertained that the outbreaks on the part of the strikers may reach the point of open revolution. While the day began quietly, the tranquility did not last long and was only the prelude to worse troubles than have occurred at any time. The mob has got further out of control, and is carrying things before it. This morning, the harbor guards were overpowered and five Russian steamers were devastated. The wharves, likewise, with great quantities of merchandise which were stored there have been destroyed. Soldiers were sent to the scene of disorders and fired several volleys at the rioters. The casualties are estimated at 300 killed and 500 wounded. The serious nature of the situation is that many of the troops in the garrison are said to be on the verge of mutinying. A number of troops this morning refused to obey the order to fire on the rioters and the authorities are in desperate straits. They are afraid to employ the soldiers further against the people as it is regarded as if any order to fire is given several battalions are prepared to desert in a body and go over to the side of the rioters. Practically the entire harbor front from the quarantine quay to the Pratique dock, a distance of a mile and a half, has been destroyed. The damage which has been wrought is estimated at over $2,000,000.

London, June 29.—The correspondent of the Evening Standard, at Odessa, telegraphs that the Russian troops showed no restraint when they were ordered to fire on the strikers. He says that thousands of innocent onlookers must have been killed or wounded during the firing. The Black Sea squadron is expected to arrive at Odessa at any moment. In that event, it is likely that a naval battle will be fought between the Kniaz Potemkin, or else the sailors on the other vessels may mutiny and seize the vessels as their fellows on the Kniaz Potemkin did.

A dispatch to Lloyds from Nickolaieff, Russia, a town near Odessa, says that 22 steamers are loading everything they can put aboard in order to be prepared to put to sea at a moment's notice if it becomes necessary.

A telegram to the Harris Dixon Company, from Odessa, says that the cargo of the British steamer Cranley was burned on the quay just after the crew had finished unloading the boat.

A number of sailors from the Kniaz Potemkine landed during the evening and joined the strikers in fighting the troops. The authorities are taking especial precautions to guard all the foreigners in the city.

Sevastopol, Russia, June 29.—One battleship and one cruiser left here last night bound for Odessa.

Eight Men Lynched.

Athens, Ga., June 29.—In the little town of Watkinsville, seven miles from here, a mob broke into the jail just after midnight this morning and lynched a white man and seven negroes who were suspected of assaulting an aged couple.

Athens, Ga., June 29.—Eight bodies hung in a cluster from the cross-bar of a telegraph pole, swaying in the wind, greeted the first arrivals in the town today, the lynching being completed before daylight. The grewsome evidence of popular vengeance was left to strike terror into the lawless negro element which the whites of Watkinsville blame for the series of crimes the lynching was designed to end.

The authorities at Athens have informed the State government of the occurrence, but what steps will be taken to punish the men who took part in the lynching has not been decided.

The mob numbered 100 men. They gathered in accordance with an agreement, all armed and masked, and bearing ropes. They went to the jail where the keeper locked the doors and made no further effort to guard his prisoners. The jail door was soon broken open and the men dragged out. They were hurried to a neighboring telegraph pole in the public square and hanged, one by one, their bodies being riddled with bullets.

Another account says the men were tied to fence posts and shot to death. Hundreds of shots were fired. Four of the negroes were charged with the murder of Mr. and Mrs. Frank M. Holbrook, May 9. Aycock was charged with hiring the negroes to kill the Holbrooks.

Lace Gown Given Princess.

London, June 29.—Beautiful Lismore Castle, the Irish estate of the Duke of Devonshire, is now occupied by Prince Gustavus of Sweden and his bride, Princess Margaret of Connought, King Edward's niece. It was selected by the royal couple as their first stopping place on the honeymoon trip, and the Duke of Devonshire has given it to them to remain as long as they desire. Discussion of the rich wedding gown worn by the bride is going on and wonder is expressed at the quality of the Irish lace worn over the satin gown in the form of an overdress, which was presented to the Princess by the women of Ireland.

His Second Marriage.

The latest matrimonial event of interest to occur at Prescott, Mich., this week, is the marriage of George Sinton, of Logan township, to Miss Maud J. Love. The feature of the affair is that the wedding occurred on the ninety-eighth birthday anniversary of the groom, while the bride is a winsome schoolma'am of only thirty-five summers, who has saved the bulk of her salary for teaching school the last sixteen years.

This was the groom's second marriage, and the bride will come in possession of his buxom daughters, all of whom are grandmothers, which will give her the distinction af being the youngest great-grandmother in existence.

Cupid seems to be looking after the interests of the pioneer residents in that vicinity, this being the twentieth wedding in which an aged groom and a youthful bride have figured.

A War of Gowns.

Newport, June 29.—All Newport is awaiting the inauguration of the most magnificent gown contest the social world has ever known. It will be participated in by Mrs. John Jacob Astor, Mrs. Perry Belmont, Mrs. Philip Lydig and Mrs. Ogden Mills. One of these four conceived the idea of having her summer wardrobe eclipse anything ever before seen here. She engaged an exclusive Parisian maer and gave him carte blanche. His only instructions were that he should make her the best-dressed woman in the summer city. Unfortunately, her maid whispered the intended coup to the maid of another of the social leaders. No one has yet seen one of the famed dresses save the owners and the makers.

General Assassinated

Berlin, June 29.—According to the Morgen Post General Narmusof commander of the troops at Lodz, Poland, has been assassinated. Rebels attacked the general while he was driving through the city, according to the account received here, and after dragging him from his carriage stabbed him through the heart.

The July McClure, which has been received from its publishers in New York, covers a wide field of interest. Ida M. Tarbell begins her character sketch of "John D. Rockefeller, the Man." 'The College Athlete" deals with the present day evils in amateur sport, and in "Ohio; a Tale of Two Cities," Lincoln Steffens tells the story of latter-day politics in Ohio. Eight full-page portraits of the President and his family, never before published, appear in this number. The fiction of this month is of a high order, stories by Henry Rowland, Sewell Ford, Richard W. Child and other well known writers appearing.

Letter to W. H. May & Son.

Alexandria, Va.

Dear Sirs: The way to buy paint is to go by the name. There is a name never seen on sham paint or weak paint or short-measure paint: Devoe.

There are a hundred different names in paint. Some are sham; some weak; some short-measure; and some all three.

If there is another such paint as Devoe lead-and-zinc, we don't know it. There are a few fairly good paints; a few, only one Devoe. A gallon Devoe is worth a gallon-and-a-half of those few.

Mr Aaron Higgins, of Plainfield N J, always used 15 gallons or mixed paint for his house. Last spring he bought 15 gallons of Devoe and had 4 gallons left.

Yours truly,

F W DEVOE & Co

Toy Pistols.

Officer Mayhugh yesterday arrested a youth named Floyd Paret, who was amusing himself by discharging a toy pistol in the street. Justice Caton in the Police Court this morning confiscated the pistol but dismissed the offender. The sale of toy pistols is forbidden by the laws of this city, and the police should see that the ordinance is obeyed. This dangerous toy has caused many cases of lockjaw which have resulted in the death of children. Officer Knight this morning disarmed a youth who was amusing himself in the western section of the city by discharging a toy pistol. Officer Lyles saw another youngster engaged in the same diversion and started after him. The boy ran, dropping his hat in his flight, and entering his home with the officer at his heels collided with a table, upset it and scattered sundry articles in every direction. As the Fourth of July draws near dangerous caps are being exploded in the streets. They are as deadly as the toy pistol when fragments of the caps enter the flesh of children. Last night some person in an upper story of the Braddock House bombarded the station house with a roman candle until stopped by the police.

Yesterday's Railroad Accident.

People who witnessed the wrecking of Southern Railway passenger train No. 38 near Springfield yesterday morning say that it was a thrilling spectacle, and the fact that no one was killed and but three persons injured, and they slightly, is regarded as marvelous. The train was running at from 60 to 70 miles an hour, being about an hour behind time, when without warning the cars began to leave the track. Ties, rails and ballast blew in every direction, and the train bulging toward the north, demolished the south bound track. The train ran about two hundred yards before it came to a standstill. The engine and observation car remained on the track, but the other portion of the train formed a semi-circle of over-turned and demolished cars. Both tracks were virtually demolished. A number of people from this city visited the scene yesterday. There are several theories urged in explanation of the accident. Some believe it was due to the dropping of a brake and others to a broken wheel, while others are satisfied a defect in the track was the cause of the disaster.

Attempt to Wreck Train.

A north bound electric train had a narrow escape from being wrecked between the Dyke and New Alexandria yesterday evening. The train was in charge of Conductor Davis and Motorman Young, and the latter in approaching a side track leading to a sand pit saw the switch had been tampered with. The train was brought to a standstill and an examination being made it was found that the switch had been turned and a fish plate placed between the rails with the evident intention of running the train into the excavation. The fish plate was removed, the switch placed in a proper position and the train proceeded to this city. There is no clue to the perpetrator of the act.

Plenty of Vegetables.

The truckers in this neighborhood say the season has been propitious for the growth of most vegetables, and the ground has brought forth abundantly. Cantalopes, cucumbers and cymlings, however, have been retarded somewhat. Many vegetables are selling at low prices at present, and some growers say it barely pays to bring certain varieties to market.

The Phillips Brooks Tablet.

It is now generally known that the Phillips Brooks tablet recently presented to the Episcopal Theological Seminary, near this city, by Harvard College, was stolen from the Brooks house at Harvard, where it was in keeping, a few days before it was to have been sent here and hidden by some of the members of the Med. Fac. Society. There were four men implicated in the scrape, and Ben Joy, who was one of them, was caught by a policeman after a freshman had given the officers the signal that some one had broken into the Brooks house. The tablet was subsequently found and sent to the Seminary and Joy left Harvard.

Personal.

Mr. Henry R. Elliott has returned from a visit to South Carolina.

Mrs. D. J. Howell has gone to Shenandale Springs, W. Va., to spend the summer.

Miss Mary Moore and Mrs. Wm. A. Moore, jr., have gone to Shoreham, N. Y., to visit Mrs W. M. Biser, sister of the first-named.

Capt. Samuel Woodward, of the police department of New Haven, Conn., is visiting Mr. J. W. Hook, 920 Duke street.

Baseball.

A large crowd gathered on the old fair grounds yesterday evening to witness the game of baseball between the Old Dominions and Alexandrias. Gray, who started to pitch for the Alexandrias, retired in favor of Wheatley. Penn, who tossed the ball for the Old Dominions, acted well his part, and the best batters were at his mercy. Owing to a difficulty between the players and the umpire the game was awarded to the Alexandrias 9 to 0. The score was 4 to 4 when time was called in the 9th inning.

Narrow Escape.

A wagon narrowly escaped demolition a few mornings ago on north Henry street. A freight train was entering the city with a locomotive at each end. The driver stopped and waited for the cars to pass. As the train neared Queen street the rear locomotive was uncoupled from the train, an act not noticed by the driver of the wagon, and he was about to drive across the track when he found his team in front of an approaching locomotive. Fortunately he turned his horse in time to avoid being struck.

Wedding.

Miss Bessie Ticer, daughter of Mr. and Mrs. M. F. Ticer, and Mr. Chas. Springer were quietly married at Grace Church parsonage last night by Rev. Edgar Carpenter. Mr. Claude Fletcher was best man and Miss Kate Tennesson acted as bridesmaid. After the ceremony Mr. and Mrs. Springer were given a reception by her sister, Mrs. E. K. Sullivan, in Washington. They later left for Atlantic City. Mr. and Mrs. Springer on their return will reside in Washington.

Clothing Burned.

There was a fire at the residence of Officer John Henderson, No. 319 north Pitt street, early this morning. A pile of clothing which had been washed was ignited by a gas stove and before the flames could be extinguished most of the garments were destroyed or badly damaged. Mr. Henderson was at home at the time and succeeded in preventing a more disastrous fire. One of Mrs. Henderson's hands was painfully burned while she was endeavoring to smother the flames.

Police Court.

[Justice H. B. Caton presiding.]

The following cases were disposed of this morning.

Flory Maglen, arrested by Lieutenant Smith and Officer Knight charged with stealing $105 from Michael Lavarens in Washington, was held for the authorities of that city.

Floyd Paret, arrested by Officer Mayhugh for discharging a toy pistol in the street, was dismissed after the pistol had been confiscated.

Fire in the County.

A fire yesterday morning totally destroyed a large frame house on the banks of the Potomac river, in Alexandria county, owned and occupied by Miss Ida Swann and her sister. Both of the occupants succeeded in getting out of the burning house in safety, and no one was injured. The loss is estimated at $30,000. It is said that the Pennsylvania Railroad recently offered $25,000 for the property, but the owners refused it.

The Last Day.

This is the last day allowed candidates in the primary election, held on the 29th of May, to file statements of their expenses with the city committee and clerk of the court, and all the candidates in the primary are required to make out sworn statements of such expenses within 30 days from the primary.

The Dogali Fires Salutes.

The Italian cruiser Dogali, lying off this city, fired a salute of eleven guns yesterday evening in honor of Admiral Higginson, of the United States navy, who visited the ship. The admiral was received with all the courtesies due to his rank. The salute attracted many people to the river front.

Body Recovered.

The body of Robert Bruce, formerly a resident of this city, who was drowned off Clifton Beach last Sunday night, has been recovered. The remains will be brought here tomorrow for interment.

Cuban Diarrhoea.

U. S. soldiers who served in Cuba during the Spanish war know what this disease is, and that ordinary remedies have little more effect than so much water. Cuban diarrhoea is almost as severe and dangerous as a mild attack of cholera. There is one remedy, however, that can always be depended upon as will be seen by the following certificate from Mrs. Minnie Jacobs of Houston, Texas: "I hereby certify Chamberlain's Colic, Cholera and Diarrhoea Remedy cured my husband of a severe attack of Cuban diarrhoea, which he brought home from Cuba. We had several doctors but they did him no good. One bottle of this remedy cured him, as our neighbors will testify. I than God for so valuable a medicine." For sale by Gibson & Timberman and W. F. Tomorrow, Friday, Is REMNANT DAY.

The main object of our remnant sales is to keep the stock fresh and clean. This is our thought always—winter or summer.

The incidental bargains are important to those who buy them, but the thought of the great majority is constantly on the fine, fresh stock that we show every day in the year.

But with thousands of individual sales daily there must be a constant watchfulness and clearing out of things that are not absolutely fresh, that are broken in sizes or scratched or marred, or otherwise unfit for regular stock.

Every Friday we clear out these classes of remnants by putting prices on them that will do it quickly and completely.

Prices on an average will be lower than usual tomorrow, and there are many attractive lots of goods included which were secured especially for this weekly sale.

THURSDAY EVENING, JUNE 29, 1905.

Worshipped as the Messiah.

The banishment of Father John of Kronstadt to a monastery located at a desolate point on the coast of the White Sea was announced in a dispatch from Berlin yesterday. Rev. Father John is charged with gross immortality and irregularity in his affairs.

Father John, of Kronstadt, is regarded as one of the most famous of Russian ecclesiastics. For years he has endeared himself to the Russian people by his efforts in their behalf. Among the peasants he is held in the greatest veneration, and by many has been declared to be the Christ. A sect which had for its purpose the worshipping of Father John as the Messiah was formed at Kostroma, two hundred miles from Kronstadt, in 1902 and it was necessary for priests to make a trip to that town to put an end to the services in his honor. The belief that he is divine is held by thousands of peasants all over Russia and pilgrims, in numerous cases, have come as far as 1,000 miles to worship the priest.

Father John himself has done everything possible to discourage the belief of the people in his divinity, charging those who professed to believe in him as the Christ with being the tools of the devil. The police, too, have taken an active hand in trying to end the worship of Father John, and many peasants who came to worship him, were arrested. Almost without exception the fanatics declared that they welcomed punishment in serving their Christ, so that the rigorous police measures had little effect on the peasantry. Frequently religious services at which Father John officiated were interrupted by people congregating who called out such exclamations as "Thou art divine," "Thou art the Holy One," and similar expressions. The priest, despite all the efforts to quiet the fanatics, is still held by many to be the Messiah, and has a large following throughout Russia.

A Reckless Chauffeur.

What is said by eyewitnesses to have been a deliberate attempt of a chauffeur in Philadelphia to scare persons on the street Monday night resulted yesterday in the death of Eldon Garber, a five-year-old boy. During a concert Monday night at Broad street and Susquehanna avenue a big auto driven at a high speed dashed down Broad street. As the machine approached the crowd it said the driver deliberately steered the auto toward the child, with the evident intention of scaring him. As the auto drew near the boy the chauffeur became confused, and before he had gained control of the machine it had struck young Garber. The auto driver then put on all steam and rushed up Broad street, pursued by two bicycle policemen. The officers were unable to overtake the auto, and gave up the chase after a run of several miles. There were six persons in the automobile when the accident occurred.

Boycott on in Earnest.

Edward G. Bellows, until recently Consul-General for the United States in Japan, has arrived in San Francisco aboard the Pacific Mail liner Manchuria. Mr. Bellows brings renewed confirmation of the boycott which the merchants of China have declared upon the United States manufacturers and upon goods and merchandise coming from this country. He adds a new phase to the condition of affairs by bringing the information that the Orientals have carried the boycott to the extent that in many instances importers are having great difficulty in obtaining assistance in the unloading of American products. In the several ports the hands who are accustomed to unload the imported goods have been taught to leave untouched the merchandise brought from this country. This condition of affairs is likely to grow.

Alfonso's Pranks.

London, June 29.—The Onlooker, a weekly society journal, publishes an account of one of the pranks performed by King Alfonso of Spain during his recent visit to England. The young king's apartments in Buckingham Palace were located on the same corridor with the rooms of Queen Alexandra. One evening during his stay the king went to the apartments of the Queen to bid her good night. As he turned away from the room the king suddenly said: "I am an athlete. Would you like to see me perform?" The Queen answered in the affirmative, whereupon Alfonso turned a series of somersaults down the corridor to his own apartments.

If troubled with dyspepsia or indigestion why not take these Tablets, get well and stay well? For sale by Gibson & Timberman and W. F. Creighton & Co.
